

1 Society of Skeletal Radiology  
2 Annual Business Meeting  
3 Sunday, March 14, 2010  
4 7:30am – 9:00am  
5 Loews Lake Las Vegas  
6 Las Vegas, Nevada  
7

8 *In accordance with the Society Bylaw (as amended March 9<sup>th</sup>, 2008), the Annual Business Meeting*  
9 *was called to order following conformation of a quorum of membership in attendance.*  
10

11  
12  
13 **I. Call to Order – Dr. Mark Kransdorf**

14 Dr. Kransdorf called the meeting to order at 7:30am. Dr. Kransdorf welcomed the membership to  
15 the 33<sup>rd</sup> Annual Meeting of the Society. Special thanks were given to all of the committee chairs,  
16 committee members and the members of the Executive Committee, for their dedication and  
17 commitment to the society. It was noted that the society relies on the membership to submit  
18 abstracts and provide input for future programs. The Executive committee has worked hard to be  
19 responsive to the membership. The Executive Committee continues to hold monthly meetings so  
20 members are encouraged to bring any concerns to the attention of any of the Executive Committee  
21 members. Dr. Kransdorf acknowledged and thanked WJ Weiser & Associates: Sue O’Sullivan,  
22 Ann Kora and Katie Scheck for their efforts and dedication to the Society.  
23

24 **II. Approval of the Minutes – Dr. Mark Kransdorf**

25 Dr. Kransdorf called for approval of the minutes from the March 8<sup>th</sup>, 2009 Annual Business  
26 Meeting.

27 **Action:** The minutes were approved as presented.  
28

29 **III. Treasurer’s Report – Finance Committee -Corporate Liaison – Dr. William Morrison**

30 This year we have recovered all that was lost in the stock market crash the year prior, and more.  
31 Our stock and bond values are actually slightly higher than they were before the drop. In addition,  
32 we had decided to move approximately \$80,000 from cash reserves (money market fund) into the  
33 investment portfolio at a time that amounted to the nadir of stock prices, which improved our  
34 bottom line even more. We maintain a very conservative mix of stocks and bonds which are  
35 geared toward a philosophy of preserving and protecting the society’s funds. We have maintained  
36 a cash reserve of approximately 3 meeting’s expenses, preferably with no more in cash in the  
37 money market fund than is guaranteed by the FDIC.  
38

39 Meeting expenses have increased over time, but this has been countered by a rise in revenue,  
40 particularly from our increased membership.  
41

42 Vendor support waned slightly in 2010 as a result of ONI being bought by GE. Support from ONI  
43 over the past few years has been approximately \$20-30,000 per year, and GE is now at the \$5,000  
44 level. Support however has been bolstered by the US cocktail hour session, which has brought in  
45 new vendors and has been very popular. Members with industry connections should continue to

46 provide their contacts with information regarding benefits of exhibiting at the Annual Meeting of  
47 the Society. Additional information about the society for vendors is available on our prospectus,  
48 which can be downloaded from the website. WJW has made significant improvement to the  
49 vendor prospectus (see attachment); additionally, we updated the member survey results which are  
50 reflected in the new document.

51  
52 **PORTFOLIO**

53 (Figures below are based on the fourth quarter of 2009; an update as of March 1 will be appended)

54  
55 Cash Assets: - Held at JP Morgan Chase Bank - SSR holds a Chase Bank checking account for  
56 operational expenses:

57  
58 Balance; **\$385,676** as of 12/31/2009

59 *This represents approximately 3 years of meeting expenses, meeting our goal.*

60  
61 Charles Schwab Investment Account

62 Managed by Joel Blau of Mediquis Asset Advisors, Inc. We maintain close contact with Mr. Blau  
63 and monitor the portfolio quarterly, more often as needed, adjusting as necessary. Portfolio is  
64 diversified and conservative, with the goal of preserving funds.

65  
66 Balance: **\$349,161** as of 12/31/2009

67  
68 *Basic breakdown*

69 Cash and money market funds: \$11,800 ..... 3%  
70 Bond funds: \$170,586.....49%  
71 Equity funds: \$166,775 .....48%

72  
73  
74 As of 12/31/09, revenue for 2009 exceeded expenses by \$186,718.85.

75  
76 As of 11/30/09 - 738 total members

77  
78 Revenue breakdown as of 12/31/2009

79 Membership dues and contributions..... \$166,095  
80 Annual meeting..... \$4,159  
81 Investment income..... \$55,911  
82 Misc / website ..... \$393  
83 Mailing list sales ..... \$1,100  
84 Journal subscriptions ..... \$46,254

85  
86 2007 Meeting expenses: \$86,328

87 2008 Meeting expenses: \$93,416

88 2009 Meeting expenses: \$121,331

89  
90 **Action:** The report from the Finance Committee Chair was accepted as presented.

91

92 **IV. Committee Reports**

**A. Program Committee – Dr. Ken Buckwalter**

Dr. Buckwalter reported that the program committee under the leadership of Carol Andrews worked hard to develop a solid program for the 2010 meeting. There were 82 abstracts received for the 44 available slots, with 16 case of the day presentations submitted for the 8 open slots. The Focus Session/SAMs has been well organized by Kirk Davis and will focus on imaging of the hands and feet. CME was approved for 18.5 category 1 credits. As the ACCME guidelines continue to become more rigorous each year, the presenters were not required to document the learning gaps and how the meeting will measure performance outcomes. The abstracts will all be published in the April 2010 issue of Skeletal Radiology. Laura Bancroft is authoring the meeting summary. It was discussed that the website should include the program books from previous meetings in a searchable format.

The 2011 meeting will be held at the JW Marriott Camelback Resort. The property works well for the SSR as far as the size and feel of the venue. Dr. Kransdorf added that the Mayo Clinic is hosting a meeting at the Camelback Inn in March and that he will be there for the first time in many years but he has heard great things about the property. In addition, Sue O’Sullivan mentioned that they recently held two large meetings at the Camelback and were very happy with the overall service and venue. The dates are March 13 – 16, 2011.

The 2012 meeting will be held at the Eden Roc in Miami just a couple miles from South Beach. The Eden Roc just recently went through a complete renovation. Dr. Buckwalter mentioned that both he and Sue O’Sullivan have visited the property and feel that it will be a great venue for SSR. The dates for this meeting are March 18-21, 2012.

**Action:**

The Program committee report was accepted as presented.

**B. AdHoc MOC/SAMs Committee – Dr. Mark Kransdorf for Dr. Thomas Berquist**

Dr. Kransdorf confirmed that the program format this year does include 2 SAMs sessions/combined with the Focus Session. This format seems to work well and has a majority of the registrants in attendance.

**Action:**

The program committee will work with Dr. Berquist to develop the SAMs module for the 2011 program.

**C. Audit Committee – Dr. David May**

Dr. May discussed the complete audit prepared by Kutchins, Robbins and Diamond, Ltd. for the year ended June 30, 2009. The accountant’s independent review finds that the financial statements present fairly, in all material respects, the financial position of the Society of Skeletal Radiology, Inc. as of June 30, 2009 and the results of its operation and changes in its net asset and cash flows for the year then ended in conformity with accounting principles generally accepted in the USA.

138           **Action:**  
139           The report from the Audit Committee was accepted as presented.

140  
141   **D.     Electronic Communications Committee - Dr. Catherine Roberts**  
142   Dr. Roberts offered thanks to her committee members including the incoming chair of the  
143   committee, Michael Richardson. Committee members include: Dean Thornton, Paul Aitchison,  
144   Amilcare Gentili and Felix Chew. Web traffic for the past year continues to be excellent with  
145   approximately 713,000 total hits in 2009, down slightly compared with 760,000 in 2008. On  
146   average, there were 141 visitors per day. The two most visited pages are the Fellowship and Web  
147   Resource pages, which is unchanged over several prior years. The majority of visitors come  
148   directly to the site without being referred. There was discussion about whether or not to remove  
149   the Wiki as it is not being utilized. Dr. Roberts encouraged the members to log on to the website  
150   and to utilize the Wiki.

151  
152  
153           **Action:**  
154           The report from the Electronic Communications Committee was accepted as presented.

155  
156   **E.     Membership Committee – Dr. Kathleen Finzel**  
157   Dr. Finzel reported that the total SSR Membership is currently at 758. The demographic  
158   breakdown includes 12 International Members. The society has continued with solid growth since  
159   1978. Last year the membership total was at 708. There were a total of 106 Full Members that  
160   were accepted on April 1, 2009. The dues cycle continues to run from July – June, in line with the  
161   fiscal year. New this year, the Management office began email dues reminders, which have been  
162   quite successful.

163  
164           **Action:**  
165           The membership committee report was accepted as presented.

166  
167   **F.     Research Committee – Dr. Tim Mosher**  
168   Dr. Mosher reported on behalf of the Research Committee. The research committee offered a  
169   competition this year for a Young investigator travel award.

170  
171   The 2010 recipient is Humberto Rosas, MD – Dr. Rosas will be presenting his research on  
172   Wednesday morning of the 2010 program.

173  
174   The research committee will focus on increasing awareness of the award and improving  
175   application instructions for the 2011 research awards.

176  
177   In addition, Dr. Mosher informed the members that the ARR is looking for radiologists to work as  
178   liaisons with disease advocacy groups to find common areas for collaboration.

179  
180           **Action:**  
181           The report from the Research Committee was accepted as presented.

182

183 **G. Residency and Fellowship Committee – Dr. Kambiz Motamedi**

184 Dr. Motamedi thanked Sue O’Sullivan and the Staff at WJ Weiser for their assistance in keeping  
185 the website updated with the current fellowship openings. It was noted that residents are looking  
186 to some of the more popular imaging fields and the number of residents in MSK continues to  
187 decrease. A discussion took place regarding the current residency enrollment numbers.  
188

189 The MSK Radiology curriculum has had great resonance. The committee will review the  
190 curriculum during the 2010 meeting and evaluate the need for any updates.  
191

192 The ABR has announced changes in diagnostic radiology certification exams for residents  
193 beginning training in 2010. The new structured core examinations will be offered as before in  
194 multiple centers and available to candidates after 36 months of training, starting in June 2013. The  
195 certifying exam will be available to the candidates 15 months after completion of radiology  
196 training and probably in several centers. The implication for musculoskeletal fellows may be quite  
197 significant, as they will feel the need to prepare for this exam. It may also change the job market  
198 climate.  
199

200 In regards to fellowship funding, there are two programs that each offer one additional position  
201 with external funding. One has a hybrid position, with 50% general radiology. Two programs offer  
202 several partially funded positions.  
203

204 The committee will focus on adding teaching modules to the website and possibly surveying the  
205 fellowship programs to make the fellowships education more structured and organized.  
206

207 **Action:**

208 The report from the Residency and Fellowship Committee was accepted as presented.  
209

210 **H. Rules Committee – Dr. Glenn Tung**

211 Dr. Tung presented the following proposed amendments to the Society of Skeletal Radiology  
212 (SSR) Bylaws and Constitution.  
213

214 *Article VI. Section 6.*

215 *The Nominating Committee is responsible for nominating members and chairs of standing  
216 committees, including any unanticipated **vacancies** or special circumstances."*  
217

218 *Article XI*

219 *Termination Of Membership*

220 *The Executive Committee reserves the right to terminate the **membership** of any **member** whose  
221 activity or behavior does not support the spirit or values of The Society of Skeletal Radiology. The  
222 Membership Committee shall review circumstances and explanation of such behavior and a  
223 recommendation shall be made to the Executive Committee prior to the subsequent change of  
224 membership. A four-fifths majority vote of the Executive Committee will be required for  
225 termination of The Society Membership and the **President or Secretary** shall notify the person  
226 involved. *The change of status takes affect immediately after this process has been completed. A*  
227 *member terminated from The Society by the process described in this Article may apply for**

228 *reinstatement of membership without the usual protocol (need for sponsoring, etc.) if application*  
229 *for membership is resubmitted within 12 months of termination.*

230  
231  
232

233 Article VII. Section 2. Twenty percent (20%) of the Full Members in good standing that have  
234 registered for and are attending the annual meeting constitutes a quorum at the annual meeting. A  
235 quorum must be present in order for new or unfinished business of The Society to be conducted at  
236 the annual meeting. If a quorum is not present, unresolved business shall be submitted to a mail  
237 ballot as per Article XIII. **Ten percent (10%) of the Full Members in good standing at the time**  
238 **the ballot or issue is distributed by the Secretary constitutes a quorum for the purpose of a postal**  
239 **or electronic mail ballot as set forth in Article XIII.**

240

241 **Action:**

242 Staff confirmed that there was indeed a quorum. Dr. Kransdorf called for a vote to  
243 approved the proposed bylaws changes as presented by the Rules Committee Chair.  
244 The proposed bylaws changes were approved as presented.

245

246 **I. Socioeconomic Affairs Committee – Dr. Jonathan Luchs**

247 Dr. Luchs thanked the members of his committee: Josh Farber, Rob Gelczer and Michael Recht.  
248 Dr. Luchs reminded the membership that in the bylaws of the SSR it clearly states that the  
249 objectives and purposes of the Society shall be “To represent the political and socioeconomic  
250 interests of Musculoskeletal Radiology in North America.”

251

252 Dr. Luchs provided a detailed review of activities from the committee during the past year.

253

254 **1. Improve communication between the SSR and the ACR**

255 ➤ Dr. Luchs had a long discussion with Brad Short of the ACR at the last ACR  
256 meeting in regards to improving communication and relations between the  
257 ACR and subspecialty societies. He seemed encouraging and said he would  
258 pass along to the steering committee: Dr. Kushner (Chair, ACR Membership  
259 and Communication) and Dr. Applegate (Chair, ACR Membership  
260 Development Committee). This is still waiting a response from Mr. Short.

261

262 **2. Rheumatology Ultrasound self-referral**

263 ➤ This is an issue Dr. Luchs is having in New York (Long Island), as one of the  
264 few radiologists on Long Island who perform musculoskeletal ultrasound. Due  
265 to the lack of radiologists performing this exam, combined with cuts in  
266 rheumatology office visit reimbursements, the rheumatologists are starting to  
267 perform their own musculoskeletal ultrasound. We need to learn this as  
268 radiologists if we plan on keeping it. If not, we will lose this as we did  
269 OB/GYN ultrasound and Cardiac Imaging.

270

271 **3. MSK and Teleradiology**

272 ➤ We as a Society should be leaders in how teleradiology is be practiced and help  
273 mold the future of the ACR standards and guidelines in regards to qualifications  
274 of the interpreting radiologist and the quality of the imaging performed.  
275

#### 276 **4. Political Meeting Attendance, Participation, & Visibility**

277 ➤ **May 2009** ACR Annual Meeting and Chapter Leadership Conference  
278 (AMCLC).  
279

280 ➤ **Resolution No. 9** - ACR Technical Standard for Diagnostic Medical  
281 Physics Performance Monitoring of Real Time Ultrasound Equipment  
282     ▪ All ultrasound equipment should be evaluated upon  
283 installation and periodically thereafter subsequently  
284 monitored at least annually to ensure that it is functioning  
285 properly.  
286     ▪ Performance evaluations are the responsibility of the medical  
287 physicist and should include acceptance testing and routine  
288 quality control testing. In addition, regular preventive  
289 maintenance should be performed and documented by a  
290 qualified equipment service engineer following the  
291 recommendations of the equipment vendor.  
292

293 ➤ **Resolution No. 10** - ACR Technical Standard for Diagnostic Medical  
294 Physics Performance Monitoring of Magnetic Resonance Imaging (MRI)  
295 Equipment  
296     ▪ The performance of all magnetic resonance imaging (MRI)  
297 units should be evaluated upon installation and subsequently  
298 monitored at least annually to ensure proper functioning.  
299     ▪ Additional or more frequent performance monitoring may be  
300 necessary in certain situations (e.g., after major equipment  
301 maintenance).  
302     ▪ Although it is not possible to consider all variations of  
303 equipment performance to be monitored, adherence to this  
304 standard will maximize image quality.  
305     ▪ Key points to consider are: performance characteristics to be  
306 monitored, qualifications of personnel, and follow-up  
307 procedures.  
308     ▪ The goal is to establish performance standards to promote  
309 production of high quality diagnostic MR images that are  
310 produced and are consistent with the clinical use of MRI  
311 equipment and with the clinical objectives of examinations.  
312

313  
314 ➤ **Resolution No. 25** - Vertebroplasty ACR Practice Guideline  
315     ▪ This guideline was revised collaboratively by the American  
316 College of Radiology (ACR), the American Society of  
317 Neuroradiology (ASNR), the Society of Neurointerventional

318 Surgery (SNIS), the American Society of Spine Radiology  
319 (ASSR), and the Society of Interventional Radiology (SIR).  
320 ■ This guideline does not address balloon-assisted  
321 vertebroplasty (kyphoplasty).

322  
323  
324 ➤ **Resolution No. 32-** Practice Guideline for the Performance of Radiography  
325 for Scoliosis in Children

326 ■ This guideline was revised collaboratively by the American  
327 College of Radiology (ACR) and the Society for Pediatric  
328 Radiology (SPR).  
329 ■ PA positioning of the patient decreases radiation dose to the  
330 thyroid and breast. The lateral radiograph facilitates  
331 assessment of kyphosis, lordosis and spondylolisthesis.

332 ■  
333 **5. Joint Committee Action**

334 ➤ 2007-2008 Report: At the request of Art De Smet and the CPT Advisory  
335 Committee, the SEC has worked on fragmentation of the MSK extremity  
336 MRI codes to more efficiently bill for studies.  
337 ➤ 2007-2008 Report: Dr. Luchs discussed joint submission of the new coding  
338 request with the AMA. They agreed it was a needed change and led us  
339 down the proper channels.  
340 ➤ A follow-up to the above issue brought to us in 2007-2008: Dr. Luchs  
341 discussed the issue in detail with the ACR and their committee on CPT.  
342 They advised me that this would not be a good idea. Their thoughts were  
343 that we do not want to further fragment codes for fear that CMS would  
344 further reduce reimbursement if more codes were available. Dr. Luchs  
345 pushed for a more decisive and clear answer; however, was left without  
346 one.

347  
348  
349 **6. Call for Action**

350 ➤ Join the ACR  
351 ➤ Join RADPAC  
352 ➤ Join your local/state PAC and get involved.  
353 ➤ Attend the 2010 ACR Meeting and Lobby Day (May 15<sup>th</sup>-19<sup>th</sup>).  
354 ➤ All the members of the SSR should get involved in RADPAC and the  
355 political side of Radiology.  
356 ➤ Try to set up a fund raiser for your local representative. This will give you  
357 an opportunity to talk about issues that are important to us as  
358 musculoskeletal radiologists and inform those who represent us in  
359 Washington that we are an important part of patient care.  
360 ➤ Local Congressional Support and Fund Raising  
361 ○ Contact person: Ted Burnes, tedb@acr.org

362  
363 **7. SEC Communication and Contact with Membership**

364                   ➤ The previous committee members were interested in putting together a  
365 survey to ask the membership about their socioeconomic concerns in  
366 radiology. The present committee members have tabled this survey.  
367

368                   **Action:**

369 Dr. Luchs will be leaving a pad outside of the meeting room for all of those that would like  
370 to inform this committee of any socioeconomic issues that they are facing in their  
371 state/community regarding musculoskeletal imaging. The committee will in turn then bring  
372 this information with us in May (15<sup>th</sup>-19<sup>th</sup>) to Washington, DC, at the upcoming ACR  
373 meeting. The report from the Socioeconomic Affairs Committee was accepted as  
374 presented.  
375

376  
377 **J. Practice Guidelines and Technical Standards Committee – Dr. David Rubin**

378 Dr. Rubin reported on behalf of the Practice Guidelines and Technical Standards Committee. It  
379 was mentioned that Dr. Ed Lee would take over as Committee Chair in 2011. Dr. Rubin informed  
380 the members that the committee has finished updates of knee, shoulder and tumors which will all  
381 be voted on at the upcoming ACR meeting. It was discussed that all approved guidelines should  
382 be posted on the SSR website. Revisions of the elbow, pelvis/hip, ankle, hindfoot are scheduled  
383 for the next few months. There is a collaborative SSR/ACR/Peds committee already set up to do  
384 the first level vetting and editing. SSR members are primarily responsible for the initial drafts:

- 385           a. Pelvis/hip – Ed Lee
- 386           b. Elbow – Mark Anderson
- 387           c. Ankle/Hindfoot – David Rubin

388 The new SSR co-sponsored ACR standard for MR of fingers and toes will be submitted in  
389 approximately one year. Hilary Umans is planning to lead this, but there have been some  
390 unavoidable delays.  
391

392 There are a few ACR guidelines (new and revised) that are not specifically co-sponsored by SSR,  
393 but which have some relevance to our membership (including clinical guidelines and the  
394 communication guideline). Dr. Rubin mentioned that when there is a guideline that makes sense to  
395 have a direct SSR stamp of approval, he will ask ACR if the SSR can co-sponsor the guideline.  
396

397  
398                   **Action:**

399 The report from the Practice Guidelines and Technical Standards Committee was accepted  
400 as presented. The Committee agreed that all approved guidelines should be sent to staff for  
401 posting on the SSR website.  
402

403 **K. Historian Report – Dr. Charles Resnick**

404 Dr. Resnik provided a power point presentation highlighting the SSR through the years.  
405 Dr. Resnik will continue to provide historical updates to the membership.  
406

407                   **Action:**

408 The members approved the report from the Historian.  
409

410 **L. Old Business**  
411 Dr. Kransdorf informed the board that he has appointed an adhoc committee to explore MSK  
412 Certification. Dr. Cheryl Petersilge will serve as Chair of this adhoc committee and the members  
413 of the Executive Committee will serve as committee members.

414  
415 **M. Nominating committee Report – Dr. D. Lee Bennett**

416 Dr. Bennett presented the slate from the nominating committee to the committee chairs:

417

418 **2010 OFFICER NOMINATIONS (All terms are 2010-2012)**

419 President-Elect: Ken Buckwalter, MD Secretary: Bill Morrison, MD

420 Secretary: Bill Morrison, MD

421 Treasurer: Andy Sonin, MD

422

423 2010 SSR Committee Changes (Changes are in BOLD)

424 **ELECTRONIC COMMUNICATIONS COMMITTEE**

425

426 Mike Richardson, MD (Chair 2010-2013, 3 year term) 2008-2013

427 D. Dean Thornton, MD 2006-2011

428 Paul Morgan Aitchison, MD 2007-2012

429 Amil Gentili, MD 2008-2013

430 Felix Chew, MD 2009-2014

449

450 **Action:**

451 The report from the nominating committee was accepted as presented.

452 **VI. Old Business**

453 A discussion took place regarding MSK Certification. It was recommended that an adhoc  
454 committee be established to explore the need for SSR to offer MSK Certification.

455 **Action:**

456 Dr. Cheryl Petersilge will serve as Chair of the adhoc committee to explore MSK  
457 certification. The Executive Committee members will serve as members of the committee.  
458

459 **VII. Welcome Incoming Officers – Dr. Mark Kransdorf**

460 Dr. Kransdorf expressed his deep appreciation to the membership for the opportunity to serve as  
461 the President of the SSR. Dr. Kransdorf proudly introduced Dr. Carol Andrews as the new SSR  
462 President. Dr. Andrews presented Dr. Kransdorf with a gavel plaque symbolizing the effort,  
463 dedication and outstanding leadership that Dr. Kransdorf has given to the SSR. Dr. Andrews  
464 thanked the membership for allowing her to serve as President and encouraged the members to  
465 to communicate with her or any of the Executive Committee members via phone or email. As the  
466 current leaders, it is important that the Executive Committee address the needs/comments/  
467 concerns of the members.  
468  
469

470 **VIII. Presentation of Outstanding Papers – Dr. Mark Kransdorf**

471 Dr. Kransdorf presented the awards for the 2009 Paper Winners.  
472

473 Christopher Hanrahan, MD

474 Temporal Evolution of MRI Findings After Rotator Cuff Repair

475 Selected for presentation at ISS  
476

477 Kevin Johnson, MD

478 Contrast Enhanced Ultrasound Characterization of the Vascularity of the Repaired Rotator Cuff

479 Selected for presentation at RSNA  
480

481 **VIII. New Business**

482 The timing of the Business Meeting was discussed. As the Business Meeting has been completed  
483 early for the last few meetings, a motion was made, and passed, to begin at the Annual Business  
484 Meeting at 8:00am instead of 7:30am, with completion scheduled for 9:00am.  
485  
486

487 **XI. Adjournment**

488 The meeting was adjourned at 8:30am.  
489

490 **Respectfully submitted,**

491

492 **Sue O’Sullivan**

493 **Associate Director**  
494
