**Society of Skeletal Radiology
Annual Business Meeting
Sunday, March 16, 2013
MINUTES**

I. Dr. Buckwalter called the meeting to order at 7:45am. Staff confirmed a quorum.

II. Secretary Report – Dr. Sonin

The minutes from the 2012 Annual Business meeting were presented for approval.

Action: Minutes were approved as presented.

III. Treasurer Report- Dr. Bancroft

Dr. Bancroft reported in 2012 the SSR continued the trend of increasing the reserve fund to three years worth of meeting expenses, with a modest growth in assets due to appreciation of existing assets. The SSR maintains a conservative mix of stocks and bonds geared toward a philosophy of preserving and protecting the society's funds. The SSR maintains no more in cash and money market funds than is guaranteed by the FDIC. Meeting expenses have increased over time, but decreased slightly in 2013 due to continued careful venue selection and management. We have also had a modest rise in revenue, particularly from our increased membership and investment income.

Cash is held at JP Morgan Chase Bank Checking account balance \$180,125.39 The money in this account is used for operational expenses.

Investments are managed by Joel Blau of Mediquis Asset Advisors. SSR maintains close contact with Mr. Blau and monitors the portfolio monthly, more often as needed, adjusting as necessary. Portfolio is diversified and conservative with the goal of preserving funds. Balance of the investment account is \$1,015,833. As of March 12, 2013.

Action: The report from the Treasurer was accepted as presented.

IV. Program Committee Report – Dr. Morrison
