

**2016**

## **SSR Paper Awards**

Selected for presentation at ISS

***MK Jesse, MD***

"Radiculopathy Following Vertebral Body Compression Fracture: Is There a Role for Percutaneous Cement Augmentation?"

Selected for presentation at RSNA

***Naveen Subhas, MD***

"A 5-Minute Shoulder MRI: Is It Good Enough?"

AIRP Award – Best Poster

***Shefali Kothary MD***

"Imaging Spectrum of Pectoralis Tears"

ACR Education Award – Best Poster

***Usman Anwer, MD, Corrie Yablon, MD***

"A Sound Approach to Peripheral Neuropathies"

## **Patrick T. Liu Innovation in Research Award**

***Robert Boutin, MD***

"CT of Hip Fracture Patients: Can Muscle Size & Attenuation Predict Clinical Outcomes?"

## **Young Investigator Awards**

***Connie Y. Chang, MD***

"Quantitative CT Density Evaluation of Osseous Metastases Following Chemotherapy"

***Erin FitzGerald Alaia, MD***

"Imaging Features on Ibalance, New High Tibial Osteotomy: What the Radiologist Needs to Know"

***Elisabeth Garwood, MD***

"Clinical Utility of Shoulder Imaging in the Outpatient Setting: A Pilot Study"

***Tony Wong, MD***

"Utility of 3D Print Models for Pre-Operative Planning in Femoroacetabular Impingement"

## **SSR Seed Grant Research Award**

***Kenneth S. Lee MD, Andrew B. Ross, MD***

"Rapid MRI protocol for the Evaluation of Potential Hip Fractures in the Elderly"
